HISTORY

40 years looking forward.

To be part of the industrial group, Válvulas Arco, means we are able to reach into over 40 years of manufacturing experience.

From design, to selection of raw materials, to manufacturing processes, packaging, logistics customer service and ultimately follow up service, at Sonia, every step in the delivery of our products is equally important.

And today, more than ever, our processes carry a commitment to sustainability at all levels.

We are engaged in continuous learning. Historically at Sonia we have made every effort in striving for excellence, in order to be a provider of the best solutions in the market for your personal space with leading edge contemporary bath design.

FLEXIBILITY CREATIVITY

1980

Ford Fiesta inside door handle.

1989

We are recipients of Ford's Q1 Certification.

90'S

German leading brands such as Hansa, Hansgrohe, Grohe, and Dornbracht rely on our processes to produce some of their products.

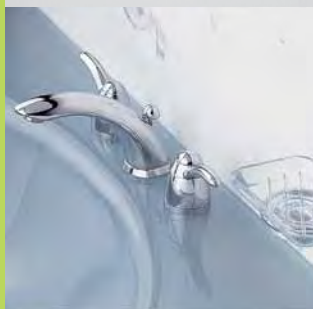

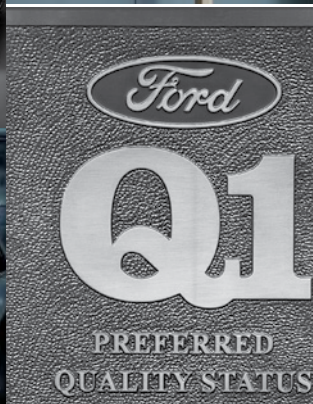

1991

Bola and Norda:
The first two Sonia Collections

1995

Our client data base increase with names like: Volvo, Jaguar, Volkswagen Valeo.

2005

IMPROVEMENT SOLUTIONS

EXPERIENCE R+D

There is only one way of doing things.... do it right with passion, quality and care. After 40 years, we continue obsessed improving our manufacturing processes. We don't stop looking for innovative solutions and investing in talent.

We work on every product as if it were the first, one by one, with care, always thinking for every design, that one day such piece of furniture or accessory will be part of your personal space, your universe.

**SONIA
LAB**

DESIGN

FROM DESIGN CONCEPT TO FINAL PRODUCT.

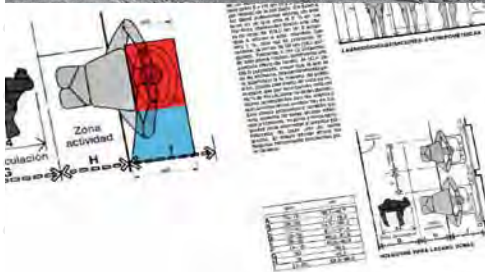

That's how we work.

From the conceptualization of an abstract thought, our team of designers and production specialists work together to create the final product.

Such process is based on a collection of adjustments and improvements aimed at seeking the perfection and quality in the final product the concept originated.

FRACTAL

MATERIALS

ACCESSORIES

Brass.

This highly resistant copper and zinc alloy is primarily used in towel bars, grab bars, tp holders, and other accessory mechanisms. Subsequently, all of these components are coated with over 20 microns of galvanized Nickel Chromium to protect from moisture and obtain shiniest finish.

Zamak.

We use this aluminum, magnesium, and copper alloy in the main frame of Sonia accessories. It's low melting point makes it ideal to for cast molding allowing for the production of complex shapes.

When cooled, this alloy is subsequently coated with a 20 micron Copper/ Nickel /Chromium galvanized coating for protection from oxide and for final plating.

Chrome plating.

Metal fabrication is our expertise and strength. Our chrome plating process meets the highest industry standards also conforming to adequate and uniform coating in all Bronze and Zamak alloy pieces. From the design stage, every piece must have minimum radius corners, surfaces must have the correct curvature where applicable, and all unfinished pieces must be free of micro pores and shavings. Attention to detail is how we achieve a long lasting and enduring finish on our accessories.

Stainless Steel.

This alloy is resistant to rust given its content of chromium and other metals that react with oxygen forming a protective coating over the iron alloy. Given its properties for strength, we use it in for support brackets and other structural components to be employed in the making of our furniture. Some of our accessories are fully made out of this material. Given the alloy's natural resistance to oxidation, there is no need to do any additional plating. At Sonia we give it a surface finish polished or satin through different fine sanding processes.

Blown or Pressed (Molded) Glass

The process of blown glass is a fabrication technique in which air bubbles are made on a piece of molten glass through a long metallic tube either by a machine or in an artisan fashion. Pressed glass a manufacturing technique in which molten glass is poured into a mold of a given shape. All glass products at sonia employ one of these two techniques.

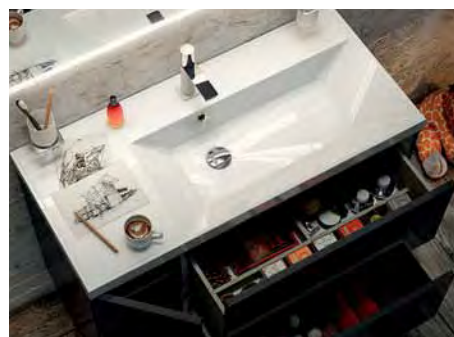

Swarovski®.

Swarovski is a world brand name for crystals created and developed by Daniel Swarovski in Austria in 1895. Swarovski is well known for the production of high quality in cutting and polishing of crystals. Specifically, Swarovski manufactures their famous crystals with special chemicals to create the rainbow reflection their crystals are famous for.

Swarovski manufactures a multiple range of applications into products such as jewelry, sculptures, miniature sculpture collections and home decor articles such as their spider lamp. At Sonia we have worked with this brand to apply this glamorous detail to our bath collection S8. www.swarovski-elements.com

BASINS

MineralMarmo® & MineralSolid®.

Similar to our Solid surface, MineralMarmo® is a new generation material easily injection molded and ideal for the fabrication of complex and large surfaces, and is often used in the fabrication of items such as sinks, flooring and furniture. It is made up of 75% natural minerals and 25% polymer resin. On sinks the surface resistance is obtained with a coat of polyester. The chemical and mechanical characteristics of this product makes it ideal for decor applications in bathroom as well as public spaces. MineralMarmo® & MineralSolid® has low care and maintenance requirements. Similar to any faucet, all is required is the use of non abrasive cleaning materials. Not recommended for use in the near strong chemicals such as acids, acetone, and coloured solvents. Additional info: <http://www.mineralmarmo.it>

Ceramic.

It is one of the most time-tested and timeless materials used in the fabrication of sanitary furniture. Though this material limits the shapes that can be molded, it is the most durable material known in the market. In its basic form, Ceramic is nothing more than a ceramic paste made up of Clay and Kaolin typically manufactured using a complex fabrication and an artisan finish. During the process of fabrication, both ceramic components are blended with quartz and feldspar powder in prescribed amounts.

The surface finish of this material is obtained by applying a mineral enamel solution while the ceramic is soft. With the baking of the ceramic in an industrial oven reaching over 1280° the ceramic reaches its hardened pint and classic shine. A quality ceramic finish is noted in the uniformity and smoothness of the surface free from blemishes, pores and an even coloration throughout the item.

MATERIALS

FURNITURE

Laminate.

Laminate is one of the most commonly used materials used to give furniture a wood finish.

While it used to be typically viewed as low quality, Laminate technology has evolved to a level that rivals qualities traditionally available only in the solid wood finishes.

It consists of a series of layers of paper and resin, using the first to define the finish pattern and color while the latter defines the hardness and texture of the finished product. The range of types of laminate finish vary and is not limited to resemble a materials such as wood, lacquer, cement, textile, fantasy and prints among others.

The main feature of the laminate is the ability to construct a board with a uniform finish throughout and on all sides.

Lacquered finish.

Also a classic finish used for furniture finish, lacquered finish in its basic form consists of the application of multiple paint layers.

depending on the number of paint layers applied, we obtain the different textures and colors in this type of finish. The range of colors is infinite and its application may be manual or automated.

At Sonia we have available several types of finishes: Gloss, High-gloss (mirror finish), Soft (textured) and Touch (rubber feel).

Finish.

A furniture's finish depends on the type of surface of the boards used to build it. At Sonia we have available several furniture finishes available depending on the type of product and where the finish will be applied.

Each material used has a set of features that makes it more suitable than others given the function that the finish will need to provide..

Natural Wood Laminate.

As a classic finish, we use a thin sheet of natural wood veneer to cover all sides of each component board. The sheet may be of any wood fibre; and, at Sonia we typically use oak veneer.

On the raw veneer, paints and varnishes are spray painted to create each specific finish. For example, a bluish dye is used to yield an ash finish, while a whitish dye is used to yield wheat and almond finish.

Unique to our brand is the dye used to determine the final color and the varnish to determine the porosity and texture of the finish.

BACKPLATE FASTENING SYSTEM

If you want to save time and money, this is the perfect option: a 3M coated stainless steel back plate where you can install most of Sonia accessories collections (S1, S2, S3, S6, Eletech, and Nakar). The adhesive backplate is really easy to install on drywalls, glass, tile, concrete... up to 0.5 mm roughness and never damaging the surface.

At any time in any place, due to the fact that the 3M backplate can be removed when the consumer wants. 3M technology and high-end contemporary products: a perfect combination. System tested: static load resistance up to 5 kg. Also Sonia S9 accessory collection offers the consumer two ways of installation: with screws or the adhesive concept.

REDUCING COSTS

Hotel installation

150 rooms hotel	Set up of 3 accessory pieces per room	\$75 per hour of labor cost	Installation: 1h. without 3M SONIA's solution with 3M SONIA's solution

Without 3M SONIA's solution:

150 rooms x 1 hour x \$75= \$11,250

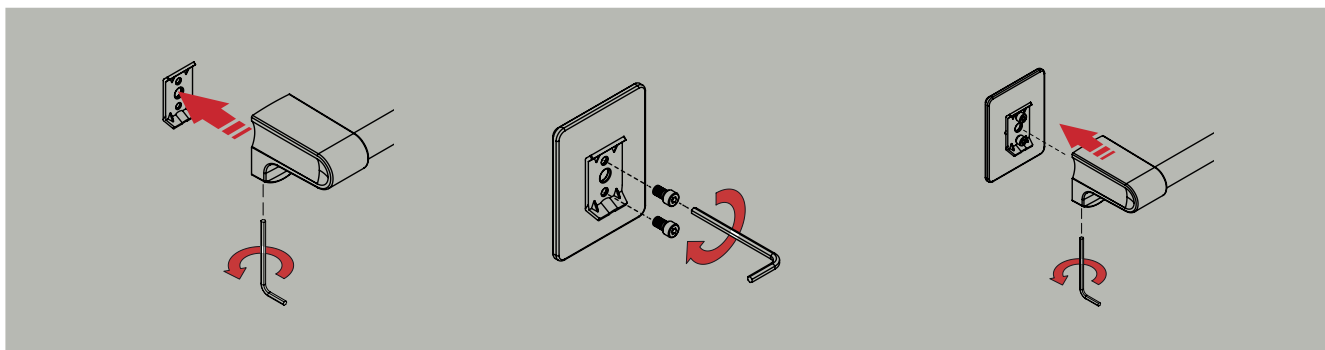

Using the 3M SONIA's solution:

150 rooms x 15 mins. x \$75= \$2,800

COMPATIBLE WITH

Product designed and tested in order to become moisture resistant. The 3M adhesive back plate system is easy to install on smooth surfaces(tile, glass, concrete ...) with a maximum roughness of 0.5 mm. Follow the installation instructions and use correctly. Sonia is not responsible for incorrect installation or misuse of the product. You can remove the adhesive back plate from the wall with a putty knife. Adding a new 3M adhesive you can use the back plate again. May also use the accessory with the screw mounting.

ACCESSORIES

Design & Functionality
in your personal space

S1 SUIT

S1 SUIT

The evolution of the S1 series.

A complete and transitional style collection including two innovations:

- Two special brackets that allow the brass tube to slide through them on to the desired position on the wall for flexible placement of roll holders and towel rails left and right. This innovation facilitates hiding old facility holes.
- Also the 3M adhesive back plate system can be used in this collection. This back plate is easy to install on smooth surfaces (tile, glass, concrete ...) with a maximum roughness of 0.5 mm.

S1 Suit: the adjustable version of the S1 series.

Fax at: 954.900.7189

WIRE BASKET

TERMS & CONDITIONS OF SALE

Prices

All prices are in USD, exclusive of applicable discounts, taxes, duties shipping & handling charges, and are subject to change without notice.

Deliveries on Confirmed Orders

Delivery dates noted on orders confirmed by Sonia Customer Care are subject to reasonable adjustment. The acceptance of shipment by any licensed transport carrier shall constitute proper delivery. Sonia S.A. and Sonia America Inc. will not be held responsible for delays in deliveries due to circumstances beyond its control such as fires, labor strikes, acts of nature, material shortages, accidents transportation delays, natural disasters or any other contingencies of such nature.

DELIVERY CLAIMS – Damage and Defects

Goods received with obvious or concealed damage must be reported via email to **CustomerCare@sonia-sa.com** within 48 hours from receipt. Goods received with defective or missing parts must be claimed within 30 days from date of delivery. It remains the buyer's responsibility to inspect the products upon receipt, notwithstanding point of delivery. **No claim can be accepted after the applicable deadline.** Keep all packaging material until the claim has been settled. All claims for obvious damages on arrival must be reported to the shipping company and noted on the bill of lading. Concealed damages must be reported to **CustomerCare@sonia-sa.com** within 48 hours of goods being received. No credit will be issued without written Return Goods Authorization (RGA) from Sonia America Inc. prior to any return. Seller's responsibility ceases when the products are delivered to the carrier in the condition as described on the RGA.

All replacements due to defective or missing parts will ship ground. Should other shipping arrangements be desired, the customer will be responsible for additional charges.

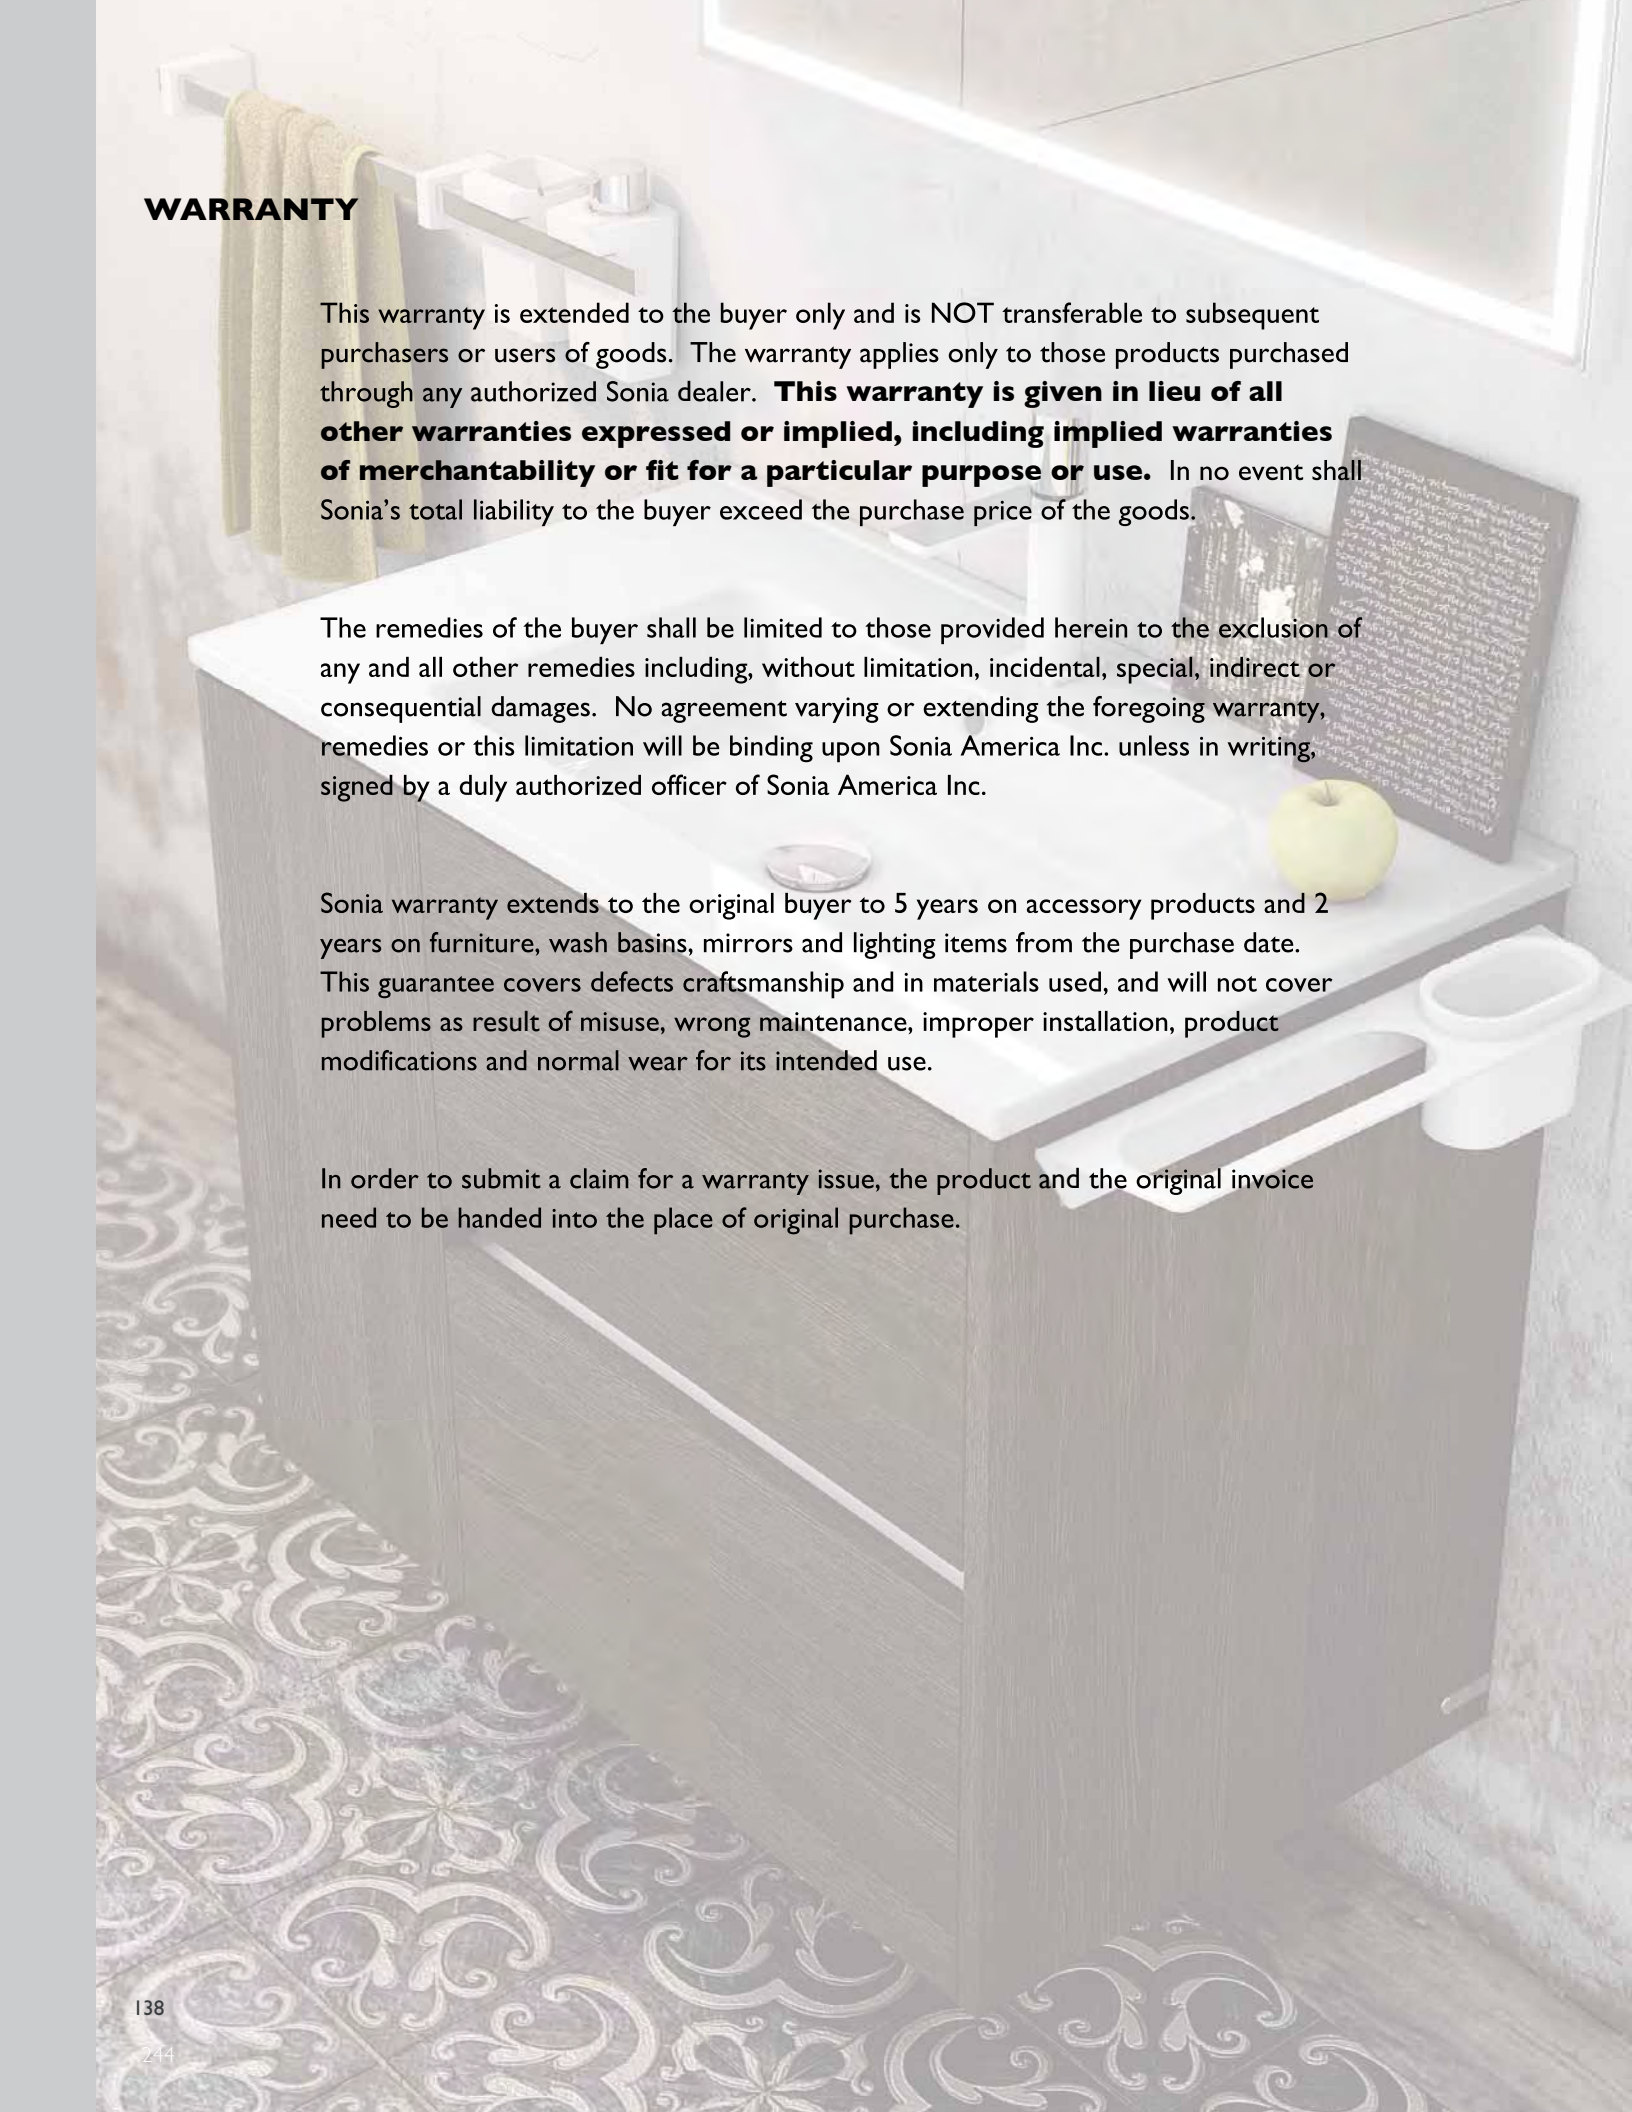

180-day return policy

Shipments for Special Orders and/or Projects CANNOT be cancelled nor returned for credit.

Products may be returned for credit when the goods are unused, with original packaging and in re-saleable condition. Goods must be returned freight pre-paid, within 180 days of purchase with a Return Goods Authorization (RGA) form. All RGAs must be requested to **CustomerCare@sonia-sa.com**, and a copy of a confirmed RGA MUST BE INCLUDED with the goods being returned with the parcel clearly marked as a return. All returns are subject to a re-stocking fee of 25%. All products must be returned in unmarked original packaging or be subject to an additional 15% re-boxing surcharge at the sole discretion of Sonia America Inc.

Wood Products

A majority of our products are crafted from noble woods and various finishes. Because of the natural variations inherent to this natural material, minor differences in the look and finish are expected and are not considered manufacturing defects. We cannot guarantee an exact match on any of our products in these cases.

WARRANTY

This warranty is extended to the buyer only and is NOT transferable to subsequent purchasers or users of goods. The warranty applies only to those products purchased through any authorized Sonia dealer. **This warranty is given in lieu of all other warranties expressed or implied, including implied warranties of merchantability or fit for a particular purpose or use.** In no event shall Sonia's total liability to the buyer exceed the purchase price of the goods.

The remedies of the buyer shall be limited to those provided herein to the exclusion of any and all other remedies including, without limitation, incidental, special, indirect or consequential damages. No agreement varying or extending the foregoing warranty, remedies or this limitation will be binding upon Sonia America Inc. unless in writing, signed by a duly authorized officer of Sonia America Inc.

Sonia warranty extends to the original buyer to 5 years on accessory products and 2 years on furniture, wash basins, mirrors and lighting items from the purchase date. This guarantee covers defects craftsmanship and in materials used, and will not cover problems as result of misuse, wrong maintenance, improper installation, product modifications and normal wear for its intended use.

In order to submit a claim for a warranty issue, the product and the original invoice need to be handed into the place of original purchase.

PAYMENT TERMS AND CONDITIONS

Invoice Payment Due

Payment on all invoices is due 30 days after invoice date (NET 30). No discounts or deductions will be allowed for early payment or otherwise unless agreed to in writing by Sonia America Inc.

Credit Card Payment

All major credit cards are accepted for payment of invoice:
Mastercard, Visa, American Express, Discover, Diners Club, JCB

Email Payment

When making an email payment, please remit to: **InfoSoniaAmerica@sonia-sa.com**.

Company Cheque

Invoice payments are accepted by mail with your company check remitted to our address in Florida:

Sonia America Inc.
4500 North Hiatus Road, Suite 218
Sunrise, FL
USA 33351

Bank Wire Transfer

For payments via bank wire transfer payment, or any questions on available payment methods contact **InfoSoniaAmerica@sonia-sa.com** for details.

Accessories and small parcels:

Prepaid and charged at the nominal UPS ground rate.

Applicable Freight Surcharges:

- Residential deliveries: \$40
- Notification prior to delivery: \$20
- Re-delivery charge: \$50
- Lift gate: \$50

FREIGHT PROGRAM – CANADA

PO Ship-Complete on available stock or stock in transit:

This program applies to all items ordered in one PO (stock and special order). All deliveries rates apply to commercial, curbside delivery within Canada only; inside delivery not available. Our Standard Delivery Freight Rates by region are as follows:

EAST and ATLANTIC Canada – USD \$185/pallet

Ontario, Quebec Newfoundland/Labrador, Nova Scotia and Prince Edward Island.

WESTERN Canada – USD \$195/pallet

Manitoba, Saskatchewan, Alberta and British Columbia.

NORTHERN Canada: call ahead for freight quote.

PO Ship & Backorder:

Orders under this program are accepted only with written instructions from the buyer to ship right away available items under the Standard Delivery Freight Rates and subsequently ship backordered items. All b/o items are subject to additional freight charges.

Accessories and small parcels:

Prepaid and charged at the nominal UPS ground rate.

Applicable Freight Surcharges:

- Residential deliveries: \$40
- Notification prior to delivery: \$20
- Re-delivery charge: \$50
- Lift gate: \$50

Customs and Brokerage into Canada

Our standard freight program includes pre-paid and charge back **Brokerage and Customs Duty** on each shipment to Canada. Canadian buyers preferring to use their own carrier and/or brokerage service must provide prior to any/all shipments, written instructions and contact information about the carrier and/or brokerage firm of their choice to **CustomerCare@sonia-sa.com**.

Minimum Advertised Price (MAP) Policy / Internet Policy

Dealers may advertise Sonia products at or above the minimum advertised price. Our MAP policy is published in the current Sonia dealer price list. For purposes of the MAP Policy “advertising” means any advertising through any media.

Authorized media consists of any and all media, including, without limitation, billboards, flyers, posters, coupons, mailers, inserts, newspapers, magazines catalogs, mail order catalogs, internet or similar electronic media including websites, forums, email newsletters, email solicitations, television, radio, and public signage. Such website features as “Click for price”, automated “bounce – back” pricing e-mails, pre-formatted e-mail responses, forms, automatic price display for any items prior to being placed in a customer’s shopping cart, and other similar features are considered to be communications initiated by the reseller (rather than by the customer) and this constitutes “advertising” under this MAP Policy. This MAP Policy also applies to any activity which Sonia determines, in its sole discretion, is designed or intended to circumvent the intent of this MAP Policy, such as solicitations for ‘group purchases’ and the like.

MAP Pricing must be displayed on the “Catalog Page” (page that displays when the site is searched for Sonia products). Prices with “strike-thru” or no price with a redirection to “Check-out Cart” to see a price that is below MAP is considered a violation of the MAP Policy. Using advertised discounts on products when added to a web-cart is not permitted (for example, an Authorized Reseller cannot state “10% off Sonia or all products when added to the cart.”)

Advertising at prices below 25% of the current Price List violates the MAP Policy. Any price with a “strike through” treatment is not considered a proper display of the MAP or higher price. Any advertised price, discounts such as coupons, or free accessories resulting in an effective advertised price for Sonia products at less than the MAP will constitute a violation of the MAP Policy.

SONIA S.A and/or its subsidiary Sonia America Inc. will monitor compliance with this policy. SONIA may, at its sole discretion, stop supplying products to any Dealer found to be in violation of the MAP Policy. Questions about whether a planned advertisement complies with this policy should be directed to Sonia America Inc at 954. 749.7400 ext 804 or **InfoSoniaAmerica@sonia-sa.com** for guidance.

Plumbing and Electrical Approvals:

We have listened to you and as of 2015, Sonia is pleased to announce our commitment to bring products compliant with plumbing (cIAPMO) and electrical c(ETL)us construction codes in North America. Our program will include approvals for our sinks, for our electrical mirrors, and for our vanity lights. As each product becomes compliant, it will bear respective product labeling and we will make a public announcement. In the interim, should you have a project that require to expedite approval proceedings with a specific item, or to inquire about the status of any product in our approvals program please send us an e-mail to: InfoSoniaAmerica@sonia-sa.com.

Plumbing approvals for our sinks:

Under this initiative, we have included our Ceramic sinks as well as our composite sinks made from Mineral Marmo® and Mineral Solid®. Our Ceramic sinks are the first to be approved in our approvals program followed by our MXI model. We will notify you on developments for our plumbing approvals after June 2015

Electrical approvals for our LED mirrors

These will include all the comfort feature's you'd come to expect from a powered mirror, making for the first time available in North America our full mirror selection in an electrical as well as a non electrical version to suit your design and budget needs.

Vanity lighting.

New for 2015, in our catalogue for North America is our bath vanity lighting. We introduce this product line with a select choice of lights for the vanity area. Two lights in two sizes debut our catalogue with c(ETL)us approvals for North America and the remainder of our selection will be brought to electrical compliance for North America under our approvals program. Again, as products become approved we will be making an announcement.

All this will begin after June 2015.

Please contact InfoSoniaAmerica@sonia-sa.com to register in our mailing list and be notified with our news bulletins, product updates and special offers.
